

RAIN BARREL & COMPOST BINSALE

Limited Numbers Left—

Get one now while supplies are available!

Interested in saving on your water bill, growing a healthier, greener and more bountiful garden while you're helping the environment?

SWALCO has a small supply of rain barrels, compost bins and compost aeration tools available for sale while supplies last. Using Rain Barrels and practicing Backyard Composting, are all sustainable and environmentally sound practices that will not only be good for your pocketbook, but for your home, community and beyond.

There are many wonderful benefits including:

- Using **Rain Barrels** reuses stormwater from rooftops and diverts water from storm drains, decreasing the impact of runoff to streams and minimizing sewer overflows during heavy rainfall.
- In addition to creating a nutrient rich soil for yards and gardens, **composting at home** means residents will dispose of less material in their waste, diverting a large percentage of materials from our landfills. Compost can also reduce the amount of water needed and helps improve resistance to both plant diseases and insect pests.

Compost Bins

Cost: \$50.00 (\$100 Value)

(11 cubic foot/311 liter capacity)

Compost Aerator Tools \$15.00

Rain Barrels (55 gallon)

Cost: \$60.00 (\$150 Value)
